Michael: Bhagavan, we prepared a few questions. To give you a short overview of the people here on this process. Many of the people here on this process are fresh and new Deeksha givers. For many it is the first time that they experience such a Bakthi Yoga Process. And everybody is very deeply touched. And so could you please tell us a little bit more about Bakthi and the role of Bakthi on our way to Mukthi?

Bhagavan: Yes. There is a story in India which is supposed to be about 5000 years old. So it is reported, a child was born. And this child refused to open its eyes. And its parents prayed to God. God must come and make the child open its eyes. And God told the child: "Please open your eyes." And the child said: "I will not open my eyes till I am assured as to when mankind would be and how mankind would be awakened. And the story goes that God told this child that 5000 years later mankind would be awakened and that mankind would sing and dance their way to awakening. It is now 5000 years, and it's time it happened. Bakthi Yoga is simply connecting with the consciousness of your divine and asking for awakening. That's all. And things are really beginning to happen now. Shall we go on to the next question?

Michael: OK now we can start with your questions Vidhyakarji. Vidhyakarji: Beloved Bhagavan I want to thank you for your time and your love. We have been told: ask and you shall receive. I don't have a question, but I do have a request beloved Bhagavan. I want to ask you on behalf of the German Deeksha givers to grant us God Realization and your full spiritual support so that we can heal our families and friends on every level. We are asking for that so that Germany can awaken and due its contribution to global Mukthi thank you for your guidance and love.

Bhagavan: You will have all my blessings and I fullest support.

Vidhyakarji: I have a question Bhagavan. Beloved Bhagavan, at the moment power is in the hands of a small number of people on this planet. What will happen, if these people do not voluntarily surrender their power and influence?

Bhagavan: Starting with 2012 power would slowly move down in the hands of the people and by 2035 most of the power would be in the hands of the people.

Vidhyakarji: Dear Bhagavan, can you please explain the difference in the way the Bakthi One and Bakthi Two Process is working? Thank you so much Bhagavan.

Bhagavan: Both Bakthi Yoga One and Bakthi Yoga Two work on the programs of the unconscious. In both Bakthi Yoga One and Bakthi Yoga Two energies emanate from the Padukas and the Sri Murthi. These energies could actually be measured. These energies act on the DNA. Because your unconscious programs are stored in the DNA. Bakthi Yoga 1 tries to reset your programs which are creating problems in your worldly life and prepares you for Bakthi Yoga 2. Bakthi Yoga 2 resets programs that are an obstacle for your awakening. There are programs in your unconscious which prevent you from being awakened, which is your natural state. Once these programs are changed, you naturally become awakened.

We move on to the next question.

Vidhyakarji: Dear Bhagavan, what can I do strengthen my devotion?

Bhagavan: To strengthen your devotion, you must constantly keep talking with your divine. You must talk the way actually talk to your friend. There is no special way of talking to the Divine. It is just the way you talk to your parents or friends. But there must be emotion in the talk. If there is no emotion all the talk is useless. As you keep talking a bond builds up. Once the bond is established, you could ask of whatever you want and you'll get it. Bhagavan: We move on to the next question.

Vidhyakarji: Dear Bhagavan, is the Oneness Bakhti Process an experience which works on many levels? What impact does it have on the global consciousness?

Bhagavan: As I told you earlier, the Bakhti Yoga works on your DNA. Your DNA and the DNA of another keep talking. It is this talk within the DNA which we could call the collective unconscious. The DNA has all the memory of your past lives the lives of the earth and the lives of your ancestors. And is constantly in communication. Let us say, you look at the fruit of a tree. And there is a desire to take the fruit and eat. It is actually the DNA of the tree communicating to you to your DNA, say "please eat my fruit". And your DNA responds by putting the desire in you to eat the fruit. Let us say you have a program in your unconscious, that one day you may have an accident and may lose your hand or leg. And there is another man who thinks one day he would have an accident where somebody might lose his hand or leg. Let us say one day both of these parties are on the autobahn. The DNA in both the parties would start communicating, and finally there would be an accident involving them both. The DNA or the unconscious of a lot of people are all the time impinging on you. Similarly your unconscious through your DNA is impinging on others. When through the Bakhti Yoga we are working on your DNA, through your DNA we are effecting a 100 000 people. That is why if 70 000 people become awakened, the rest of mankind would make it very easily. Next question please.

Vidhyakarji: Dear Bhagavan, not long ago, you told us, that if we don't feel so comfortable with parts of the actual Bakhti process, we are invited to modify it according to our western culture. What leeway do we have from your side?

Bhagavan: The Padukas and the Shri Murthi are the only crucial elements. All the other rituals are a way of communicating to your unconscious. The unconscious responds very (verbally?) to rituals. You have complete freedom to change those rituals according to your culture. Bhagavan: Next question please.

Vidhyakarji: Dear Bhagavan, what is your recommendation for an intention on what we should be aware of most during the Bakhti Yoga process?

Bhagavan: You must be aware of the craving for significance. Please note, it is not that you must be free of significance. You must just be aware of your craving for significance. The second point: You must be aware of your ingratitude. Here again, not that you must be grateful, but you must be aware of your ingratitude. And the third and the most important point is: You must be aware of the absence of love in your heart. Here again, it is not that you must have love, but you must be aware that there is no love. All else is automatic. Bhagavan: We move on to the next question, please.

Vidhyakarji: Bhagavan, a final one, Bhagavan: Is there anything to tell us or share with us?

Bhagavan: When I look at you, I feel a tremendous love for all of you. I feel, most of you would be members of the 70 000 army. To be members of the army, you must have a powerful Antaryamin. You must be able to drink nectar. You must have your horse. And you must have your sword. And you must go to the great hall Satyaloka. Where you must meet all the Great Ones of all time. And then you must be awakened. Then you are part of the 70 000. I have a strong feeling that most of you are going to be there. (loud jubilation!)

Vidhyakarji: Bhagavan, we want to meditate with Bhagavan, Bhagavan.

Bhagavan: Yes.
